

TSX3000M

Mobile Mid-Rise Scissor Lift

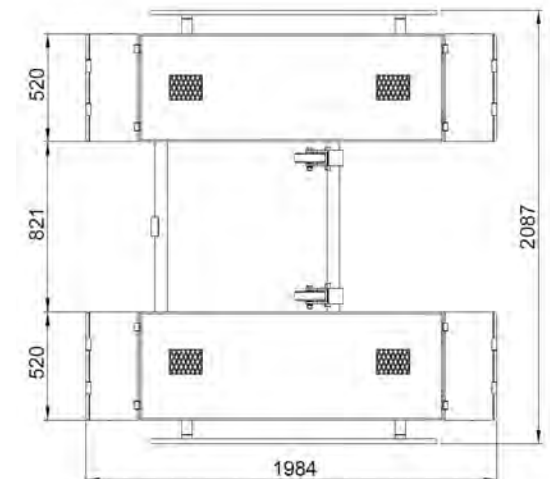

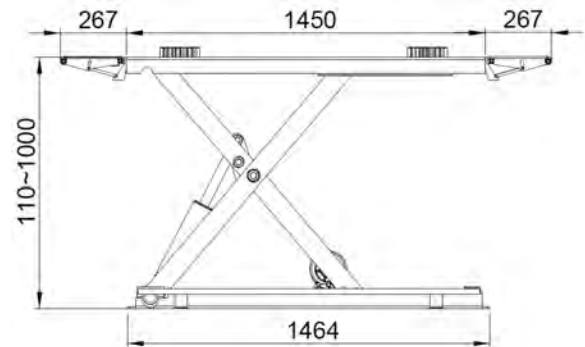

This fully-portable scissor lift is ideal for tyre shops and body shops who need the flexibility of a lifting option that can be easily relocated around the workshop or even outside.

With extendable platforms to accommodate both short and longer wheelbase vehicles, the TSX3000M can be positioned at multiple heights to suit the operator up to a maximum lifting height of 1 metre, with the luxury of a visible mechanical locking system providing additional security to the integral 'parachute' valve safety mechanism.

KEY FEATURES

- 3000 Kg capacity lift ideal for fast tyre replacement and brake service work
- Sleek ultra-thin design
- Portable design
- Emergency manual lowering in the event of power loss
- Secure and reliable
- Ultra-thin and floor-mounted so no in-ground installation required
- Electric mechanical safety lock ensures secure equipment load

TECHNICAL DATA

- Lift Capacity: 3,000kg
- Lifting Height: 1,000mm
- System Pressure: 25Mpa
- Motor Power: 2.2Kw
- Voltage: 220V/380V, 50Hz
